

# Sister Company Portal - Quick Guide

Guest browsing and registration (ordering)

Generated: 2026-05-26

## 1) Browse as Guest

From the SC Login page, click "Continue as Guest". You will be redirected to the Products page to browse the catalog.

As Guest, you can:

- Browse products and use search / category filters.
- Open a product gallery to view images.
- View the catalog list (if available in your build).

As Guest, you cannot:

- Place orders (adding to cart will prompt you to register or log in).
- Use Cart/Orders features (navigation links are hidden in guest mode).

## 2) Register when you want to order

You can register from the login page by clicking "Not registered? Create an account", or when prompted after trying to add to cart as a Guest.

Registration steps:

- Store Info: enter Store Name, Store Address, Contact Number, Assigned Personnel, Credit Amount, Terms, Email, and Password.
- Approvers: add one or more approver (OIC) accounts. You will need an approver username and password when placing (or cancelling) orders.
- Review: confirm details, then submit to complete registration.

After successful registration, you will be redirected to the Dashboard and your account will be used for ordering.

## 3) Place an order (registered users)

Once registered and logged in:

- Go to Products, then click the cart button on an item to add it to your cart.
- Open Cart, select items, and adjust quantities if needed.
- Click "Place order". An Approver (OIC) will be required to approve and place the order.
- After ordering, use Orders to track status and details.

## 4) Log out / switch accounts

Use the "Logout" link in the header to end the current session.

If you were browsing as Guest and want to order, register first, then log in using your registered email and password.

## Need help?

If you are missing approver credentials or encounter access issues, contact your Golden Era

Motors representative for provisioning.
